PREFACE

The WVRL Statistical Handbook is published with the object of providing a concise, convenient and usable source of selected statistical facts and figures relating to state and local government in West Virginia. It is provided free of any charge as a public service to the citizens of West Virginia and others interested in our state.

Volumes of detailed compilations of statistics on government finance and administration are issued periodically by state and federal agencies. While these publications are important and necessary for official and private researchers of governmental problems, they are cumbersome and time-consuming to use. The WVRL Statistical Handbook is intended to provide an accessible and easy-to-use initial reference source. It provides reliable information for businessmen, public officials, students, teachers, editors, interested citizens and others who have need for West Virginia statistics, but may lack the time or facilities to search widely-scattered publications for this information.

As indicated by the footnotes following each table, the information contained herein is derived from official sources. Where comparable data was available statistics for a ten-year period are provided. The latest year available is always shown, but may vary depending upon the accessible data.

The data contained in this Statistical Handbook are basic. The WVRL has neither attempted to make comparisons nor identify trends. Interpretation and analysis of this information, therefore, is left entirely to the user. Anyone requiring additional or more detailed information than is contained herein is invited to contact the offices of the West Virginia Research League.

In preparing the Statistical Handbook, the WVRL has received valuable assistance from many state and federal agencies. We take the opportunity here to convey our sincere appreciation to the officials and staff of these agencies for their interest and cooperation. Without their assistance this publication would not have been possible.

THE WEST VIRGINIA RESEARCH LEAGUE

The West Virginia Research League, incorporated in 1969, is a non-profit educational organization which conducts research into state problems and provides factual data to public officials as an aid to improving the governmental process. The WVRL research role is that of an independent analyst. It serves the citizenry as a whole through its effort to bring new knowledge to the attention of the decision makers in government, without cost or obligation to those officials.

Under the terms of the WVRL Charter, the corporation makes studies only for governmental departments and agencies upon their request. It does not prepare reports or publish studies for private individuals or groups, however worthy, which are not part of state government. However, completed studies are usually released to the public by the requesting agency and may be obtained from the WVRL. (See page 76 for a summary publication list.)

The primary functions of WVRL are:

- To research, study and analyze public issues of significance to West Virginia; to compile and publish its findings in a clear, objective and non-partisan form; and, to provide such reports to the departments and agencies of the government of West Virginia.
- To cooperate with public officials in working for the adoption of improved public administration methods, systems and procedures in West Virginia government.
- To be a fact-finding organization whose activities serve to broaden the channels of credible communication, and thus assist in the development of responsible relationships between those who govern West Virginia and those who are governed; and, to serve naterially to advance West Virginia's economic and social development.

The WVRL research programs and activities are made possible by the voluntary contributions of its corporate members, which represent a broad cross-section of West Virginia business.

TABLE OF CONTENTS

	Table Number	Page Number
SELECTED GENERAL ECONOMIC DATA	1	7
TOTAL STATE FINANCES		
Principal West Virginia State Taxes & Fees	2	8
Gross Receipts of All State Funds	3	9
Gross Disbursements of All State Funds	4	10
Summary of Net State Revenues - By Major Fund	5	11

[d] West Virginia University Medical Center, Marshall University Medical School and W. Va. School of Osteopathic Medicine

Educational and General Operations of the institutions are the educational, research and extension and public services activities as well as the necessary supporting services of general administration, student services, libraries, and physical plant maintenance and operation.

Auxiliary Enterprise operations are conducted by the institution primarily for the purpose of providing services of a non-educational nature to students, faculty and staff.

Student Aid related to gifts, grants, endowments, or other sources of income which are specifically designated for scholarships, prizes, etc.
